

**Utah FORGE  
Disclosure Statement and Confidentiality Agreement**

Disclosure of Interests

Please report below any actual, apparent, or potential conflict of interest that you or a family member (defined to include a spouse, dependent child, or household member) may have, including any known material interest in an outside entity, with which Utah FORGE has or is considering a transaction or other relationship, or about which Utah FORGE has made or may make decisions. An interest is presumed to be material if it entails:

- Any ownership or investment interest (including stock, options, debt, a partnership interest, or any other ownership or investment interest) valued at more than \$10,000;
- Receipt of non-dividend compensation (including salary, consulting fees, royalty payments, or other remuneration) of more than \$10,000 in the past year, or the expectation of such compensation in the future; or
- A position of authority in an outside entity, such as director, officer, trustee, partner, agent, or employee.

An individual is not deemed to have a material interest in a publicly traded entity by reason of an investment in that entity by another publicly traded entity, such as through a mutual fund, of which the individual does not control investment decisions.

You have an ongoing obligation to update this disclosure and promptly report any actual, apparent, or potential conflict of interest as it arises.

Do you have any actual, apparent, or potential conflicts of interest, including any material interest, to report?

\_\_\_\_\_ None at this time  
\_\_\_\_\_ Yes, and my disclosure is the following: (Attach additional sheets if necessary.)

---

---

---

I affirm that, other than the interests reported above, I am aware of no actual, apparent, or potential conflict of interest (involving myself or a family member), including no known material interest as defined above, with which Utah FORGE has or is considering a transaction or other relationship, or about which Utah FORGE has made or may make decisions.

Confidentiality of Information

I acknowledge that by virtue of my efforts on behalf of Utah FORGE, I will gain access to non-public information about the Utah FORGE process for soliciting research and development (“R&D”) projects, responses to R&D solicitations received by Utah FORGE from potential collaborators, and other sensitive or proprietary business or technical information related to Utah FORGE or its collaborators (collectively, “Non-public Information”).

With respect to such Non-public Information

- I agree not to disclose Non-public Information to anyone except to other individuals working on behalf of Utah FORGE and, even then, only when those individuals have a need to know the Non-public Information in order to perform their responsibilities on behalf of Utah FORGE.
- I agree to safeguard Non-public Information consistent with any directives given to me by Utah FORGE or, in absence of specific directives, using at least a reasonable degree of care.
- I agree not to use any Non-public Information for any purpose other than to fulfill my responsibilities to Utah FORGE.
- I agree that, if I were to use Non-public Information in violation of this agreement, it may result in harm for which monetary compensation is an inadequate remedy and, therefore, I agree that a party damaged by my actions could seek a court order requiring me to stop additional disclosures, or other similar equitable relief.

I understand and acknowledge that this forms a binding agreement between me and the Energy and Geoscience Institute of the University of Utah, as the administrator of the Utah FORGE project (referred to herein as “Utah FORGE”). I acknowledge that Utah FORGE is allowing me to continue my involvement with Utah FORGE in reliance on my agreement to these terms and the accuracy of the information I have provided in connection with this document.
